

Our opposition had only won one of their six games.....but surely not with this 11. It was a tight affair with both defences cancelling out the opposing teams threats. Mark broke through but his shot was well parried away. It was going to be a set piece to break the deadlock....and from a corner gained from excellent pressure and interplay a trade mark Grant Harris headed goal hit the back of the net. They came back into the game but were kept at bay until near the end of the first half. Then their nippy winger managed to keep the ball in before the byline when all else had given it up. He pulled it back nicely and it was met by their striker running in on goal to tap home. 1-1 at halftime. A sound team talk from Grant and Greg at half time. No panic but the importance of the three points was acknowledged by the team. This was further showed by everyone's work rate remaining high. Mark and James up front closed down the opposition and the midfield started to boss the game and with Crispin following on from Jevon their remained an injection of pace to assist our strikers. Mike's constant harassing of the opposition...sticking to his man was getting to them too. The next goal was going to be so important and it deserved to go to us. We applied pressure but just the final ball eluded us. Then a snapshot from the edge of the area was only forced onto the post by their keeper who up until then was having a good game. Crispin was the first to react and he fired home the rebound. 2-1 to Eggs.

Now if anything our determination and work rate actually increased. We wanted this win and despite some late pressure held on.

Well done boys. Not only for the good win but for the work effort and

team spirit. Let's keep it up.
