

Match Report : Old and new blood gelled really well to get the four's their first win of the season and it was very much deserved. Everybody from the keeper through to the strikers had a much better game helped by the fact that we were a team today. Everybody worked their socks off and it was not until after half an hour the opening goal was deserved. Daniel latched onto a ball just inside the area and his shot went in the bottom corner. A goal he had been trying so desperately to get and it showed in his celebration. We wanted to join in but us 40 year plus chaps couldn't catch him as he ran up the side line in joy.

We were now on top and several good moves should of resulted in more goals. Kemar in midfield was majestic and Jevon thunderous.

We created chance after chance and hit the woodwork twice and Grant had a dipping shot tipped over.

It was no surprise when Ashley who again was so lively slotted home our second.

What was a surprise was that the oppo then scored. A deep cross from the sideline and some 35 yards out caught everybody out including our keeper and flew into the net. It was one of those that as soon as struck you could see what was going to happen but no one could stop it.

It was a hard pill to swallow for Rickel who had his best game to date, having pulled of some good saves and dominated his box more.

But the goal against scored with about 15 mins to go did make us feel more nervy. We so badly wanted our first win.

We pushed on down the hill and got reward as a defender was forced to panic and gave a pen away with handball.

Greg then sprinted.....yes sprinted 80 yards to claim the ball and take the pen.

But he showed he was the man for the job when he slammed the ball home no problem.

You could feel the tension levels fall and the oppo's heart in the game falter. It was a crucial moment in the game.

Late on Jevon was rewarded for his tireless industry when he finished well after fine work by Ashley. Final result a well earned 4-1 victory.
